Other Business Takings

In accordance with section 67 of the Local Government Act, Council, through its business units, intends to carry out works for owners and occupiers of public land. The aim of these business units is to allow the customers and the community to benefit from Council exposing its service delivery operations to competition. At the same time as far as possible Council is determined to stay in the business of service delivery by; being competitive and to demonstrate that Council subject it's own business units to notional tax equivalents, debt guarantee fees as well as regulations as they apply to a private firm. Business units may ensure the costing of their tender bids reflect both direct and indirect overhead costs as well as any costs associated with notional taxes, debt guarantee or cash flows.

Business units should operate on a commercial basis with the objectives of

- Producing and delivering top class, innovative and competitive services in accordance with Council's specification and commission.*
- Achieving satisfactory returns on the community investment in their operations*
- Providing satisfying and secure employment for their staff through being competitive and dynamic*

This approach may be regarded as commercialisation. Business units may compete for work external to Council where

- The units ability to satisfy service level agreements within Council is in no way compromised*
- The initiative being consistent with the Unit's adopted business plan and strategy.*
